# LILLEY IN SPECIAL MESSAGE DECLARES NEED OF UTILITIES BILL

### Legislature Should Make General Policy, but Commission Should Have Charge of Detail.

Governor Outlines His Views of Control of Public Ser-'vice Corporations-Should Be Kept Under Careful and Continuous Supervision-Honest Corporations Need Have no Fear.

(Special from United Press.) impracticability of a legislature which only holds bi-ennial sessions and attempting to give the proper attention to public utilities and stating that the source through which these special privileges are granted, Governor Lilley to-day sent a message to the House urging prompt action on the public utilities bill which provides for the appointment of a commission for the supervision of public service corporations. The message is as follows:

To the Honorable General Assembly: I desire again to call the attention of your Honorable body to the report on the bill of the commission concerning public service corporations which I believe to be the most important

advanced policy of sister states. from which the grants of special privi- lined by the legislature. lege flow should be in session at all by the change recommended, for a upon this bill. large portion of the bill especially provides for the safe-guarding of their investments to a greater degree than is

I now possible. There is no suggestion Hartford. Feb. 25 .- Pointing out the of an attempt by the state to interfere with the proper management of the corporation, but there is a clear intent to put them on an equal basis and under careful and continuous supervision. Any public service corporation properly and honestly organized and managed can have nothing to fear and everything to gain from the creation

There is no question in my mind but

of a public service commission.

that the legislature is the proper body to consider all questions of general policy concerning this or any other subject but I do question the advisability of the legislature undertaking to pass upon public service questions. Let the legislature declare the general policy of the state in dealing with the public utilities and then let a small commission decide the individual questions arising under that policy. creation of a policy is purely legislaive, the application of that policy is purely administrative. We have measure before the General Assembly this state a clear precedence for superof Connecticut at this time. It is un+ vision by an administrative body of necessary to comment on the present the railroad branch of the public condition of public utilities corpora- utilities and there seems no good reations in this state, to urge this bill up- son why the same policy should not be a foreign measure, but I do extended to all other corporations of urge it upon you as enlightened and this class and the law on the subject progressive legislation in line with the revised and codified in accordance with the report.

The immense perplexity of modern Your Honorable body, will of course, business conditions has rendered the understand that the passage of the bill supervision, which is possible under the will put an end to special privilege so present system, insufficient. It is no far as the words are taken to mean an longer practicable for the legislature, undue advantage for one corporation meeting once in two years for a few over another of the same class, and months, to give to public utilities that will prevent any persons or corporation scrutiny which the people receiving from the state privileges inrightfully demand. The same source consistent with the general policy out-

It is my earnest wish that the contimes to see to it that those special sideration of this matter by your Honprivileges which are granted for the orable body should not be delayed, for benefit of the people are exercised in I believe that the great body of our the interests of the people. I do not people are in favor of it and that the apprehend, on the other hand, that per- measure of their approval of your work sons who have invested their money at this session will largely depend upin corporations will suffer in any way on your prompt and favorable action

#### MANY APPLICANTS MAY COERCE FOR POSITIONS ON MEDICAL STAFF

No Change in Corps is Contemplated by the Board of Paris Hears She Has De-Charities, Although Positions Are Eagerly Sought

The number of applications for posi-tions on the medical staff of the Board of Charities indicates that business is not very good among the doctors in the city. Every member of the board has been approached by a number of physicians, anywhere from two to 20, and also by their friends and the politicians who think they have more or principal European capitols. less of a pull with the department. In spite of all these applications there have been no indications that there will be any changes in the department when the time for the appointments

The board as now constituted is harmonious, indeed so harmonious that the spice of the controversies of the past is missed and the meetings of the board seem tame by contrast. It is safe to say that there will be no jan- grade that will dampen the Servia war So far no one inside the department has suggested any change. The scalping knives which have been

whetted from time to time for the scalps of Superintendent Brennan, Clerk Nevins and Investigator Morrissey have been sheathed with no presprospect of their reappearance. The board has expressed itself as satisfied with its present staff and there Pickard that Turkey will not support are no indications that there will be any change whatever.

No applications have as yet been received for the positions of superinten- made public, until today. dent, clerk, or investigator. It is possible, however, that there may be a change at Lakeview, when the new ital, within a few hours after a decboard gets under way. It was rumored some time since that Supt. Cowles would give way for some other day from the German and Austrian man when the new board was organ- army headquarters is to the effect that ized, but no such move has as yet been there is no doubt that the German recognized by the board as a whole. The members of the board are await- trians should Italy attempt to cross ing the action of the committee in the Austrian frontier. charge of the Police and Charities buildings so that they may begin work on rooms for the chauffeur of the ambulance. It will cost the board about

Huge Chain to Be Passed Around the Hull-No Guarantee that Opera-Because Position Breakwater Puts Wreckers at Disadvantage-Toole & Sunderlin Divers to Recover Sunken Portion of Cargo.

A crew from the New York station of the Merritt & Chapman Wrecking for court. Co., began the work of removing the engines and machinery from the hull of the wrecked steamer, John H. Starin which lies on the Steeplechase Island breakwater. After the machinery is removed an effort will be made to float the craft thus lightened.

A crew are aboard of the derrick rigged tug W. E. Chapman, which has been in the government service at Santiago, Cuba, and the huge derrick lighter, Atlas.

After the machinery is removed the wreckers will plank up the holes in the vessel from the outside, and will put ed at \$800 and he was locked up in the huge chain around the craft, into deep water. tee on the part of the wreckers that the huge steamboat will be successfully floated, but an effort will probably be made to-morrow, or Saturday, to The craft lies in a position that puts the wrecking crew at a disadvantage, as the breakwater being alongside the derrick boats are unable to get on more than one side

Toole & Sunderlin, the local contracors who salvaged all of the cargo of the wreck that could be secured aboard the craft and floating in the water in the vicinity have been awarded the contract of recovering that part of the cargo which lies beneath the surface of the water. A diver will be used in this work. It was expected that the work would be commenced this morning but the water was so rough outside of the breakwater that the operations were given up for the

# CARDINAL GIBBONS PRAISES MR. TAFT

(Special from United Press.)

Baltimore, Feb. 25.-Cardinal Gibbons who returned from New Orleans early in the week spoke to-day in glowing terms of President-elect Taft. "Mr. Taft is a man of fine calibre,' to the European Powers said the Cardinal, "and his tact and liplomacy are offset by his kindness of spirit and his open heartedness. filled all who met him with love towards him and I am sure he made few or no enemies. His good executive ability, combined with his judgment should go to make him an excellent President. I feel that he is a man of principle who will respond to his duties nobly."

It is known that the Cardinal had a warm regard for President McKinley and those who know him say that he holds Mr. Taft in still greater esteem. Of the Panama Canal Cardinal Gibbins was not so enthusiastic. He said the business interests of New Orleans do not think so highly of the project as their northern countrymen, declaring all money invested in it would be tion will ultimately be made at Bellost as a result.

> Alleged That They Conspired to Procure False Naturalization Papers.

Parlon, For Whose Benefit Job Was Done is Wanted - Suspects Admitted to Bail By U. S. Commissioner Peck.

If the charges against John Lekas, son of the proprietor of the Greek res taurant in Water street, and Costas tions Will Be Successful, Vorias, an employe of the Union Metallic Cartridge Co., are proven in the courts, they will find that it is a se-Steamer Against the rious matter to barter in naturalization papers. They were arrested yesterday by U. S. Deputy Marshal W. L. Parmelee of New Haven, who came here armed with warrants for three men, the third being Nicholas James Parlou, a new arrivel from Greece, who wanted naturalization papers be fore it was time for him to have them and who was unable to answer the questions he would be obliged to answer if he appeared before the Super-Parlou got out of town before the

deputy marshal arrived, but it is believed that he will not be able to get out of the country without being apprehended. All three of the men are charged with conspiring to defraud the government under Section 5418 of the Federal statutes, while Lekas has the additional charge against him of selling naturalization papers. Upon being taken into custody,

Vorias and Legas were taken before U. S. Commissioner E. B. Peck and a date for a hearing was set for Saturday morning, at 11 o'clock. Bonds in the case of Lekas were fixcounty jail. Vorias was able to fur-

bankbook over to his foreman, J. W. Blakeman, assistant mechanical engineer at the U. M. C. Co. The alleged fraud was discovered by James Farrell, U. S. Naturalization Examiner of the Eastern New entries upon the books of the Immigration Bureau in New York concern-

ing the history and description of Nicholas James Parlou did not jibe with the questions readily answered by the man who appeared in the Superior court on Dec. 23 last and represented himself to be Parlou. Secret service men took up the case and evidence was secured which gave good ground to believe that Lekas had

contemplated conducting a business of supplying citizenship papers to all hose who desired to get them. The papers secured for Parlou were what are known as "first" papers. In order to get them the man who appeared in court under Parlou's name took an oath to renounce his allegiance to King George of Greece and declare his intention to become a citizen.

The first papers are valuable in many cases in securing work for the men holding them. Once in possession of second papers the holder can KEEPING PEACE Speaks in Glowing Terms of the U.S. government in case the originally left there charged with some offense of a political nature.

# EASTON STIRRED BY MYSTERY OF CLOTHED SKELETON IN

#### Remains are Those of a Woman Apparently of Advanced Years.

One Theory is that She Was .a Friendless Person Who Fell Exhausted-Another Claim is that Murder May Have Been Done-Aged Woman Called at Andrews Home Four Years Ago.

flesh dessicated by long exposure to the air clinging to it, was discovered in a field on the Adams Road, in Easton, last night, by boys. The remains had evidently been disturbed by wild animals. But the clothing was still about the grisly exhibit and the framework was imbedded in the grass in a way to indicate either that death had careful an examination of the skeleovertaken the woman as she lay at rest, or else that if the body had been brought to the spot, it had been carefully composed in the attitude of a person sleeping.

The people of Easton are much excited by the discovery and two theories prevail, which are in conflict with each other in the minds of the many who have now visited the scene. The first theory is that the skeleton is that of a friendless woman, who ex-

hausted and penniless found herself on the highway at this point and lay down to rest, or die. This theory was supported by the The slates are headed by Carl Foster statement of Elmer S. Andrews, owner

Mr. Andrews remembers that about

But after thinking the matter over Mr. Andrews can not reach the conclusion that the clothing upon the Wilder candidacy were heard first by skeleton is like the clothing worn by the committee. Owing to the large the visitor of four years back. It apnumber appearing it was impossible pears to him also, as he said to the for the committee to hear all who were Farmer, this afternoon, that the sev-1 eral members of the skeleton are more coherent than they would be after an exposure of four years.

As no person is missing from Easton, or has mystericusly disappeared, the second theory falls back upon the idea that a murder has been committed as ing it over the fence of Mr. Andrews'

The discovery was made last night by Johnnie Logan, the 14 year old son of Homer Logan, who with a party of boy companions was playing in the neighborhood. He ran from the spot horrified, to tell some older men whom they knew of the sight they had seen.
